ACADEMIC YEAR – 2021 -2022

Certificate Course Zoology On

**“ HIV/AIDS: INFECTION, DISCRIMINATION AND
PREVENTIVE AWARENESS ”**

Aim:- The main goal of this course is to educate and raise awareness about HIV/AIDS among younger generations and their families, including infection, discrimination, and prevention.

Course Objectives:-

- To provide basic HIV/AIDS, sex and sexuality education, family life education, drugs and substance misuse, communication, and counseling knowledge.
- To provide complete facts about HIV/AIDS, including what it is, why it exists, and how it is spread.
- To give people a basic understanding of HIV/AIDS and discrimination.
- To be aware of the realities of life and the substances abused by HIV/AIDS patients.
- To provide a comprehensive awareness of the issues concerning HIV/AIDS and lifestyle changes.
- To create a new generation of HIV/AIDS donors being well in the diseases, either now or in the future.

Course Outcome:-

This is an independent Certificate Course designed and developed by Dr. Gulbhile Shamsundar Dhondiram, Assistant Professor, Department of Zoology, Vaishnavi Mahavidyalaya, Wadwani for B.Sc. third year students. It has developed simple Self-Instructional Materials and a syllabus for giving education and training in English.

Beyond theoretical understanding, this Certificate Course will provide learning, instruction, and counselling. This course is conscious of a wide range of educational and community environment as well as individuals in a family. With the rapidly changing social landscape, people from all walks of life are dealing with a variety of issues. In India, unlike in the West, counselling services are severely lacking. Counsellors are in high demand in schools, colleges and universities, health care settings, social and welfare sectors, correctional settings, and other settings. However, there are very few schools, colleges, or universities in India where courses or programmes are taught. There is an immediate need for a well-informed new generation to deal with the challenges and concerns that HIV/AIDS patients and their families face. In today's modern world, this Certificate Course On HIV/AIDS: Infection, Discrimination, And Preventive Awareness are extremely useful.

Course Duration:-

The course consists of 30 hrs duration bifurcations with informative lectures, interactive sessions and with final question answer session for evaluation of the course.

Syllabus:-

Syllabus's chapters are broadly elaborated with detailed topics -

Chapter 1: Basic HIV/AIDS Knowledge

Detailed History of HIV/AIDS, discrimination, including what it is, why it occurs, and how it spreads.

Chapter 2: What Is the Impact of HIV/AIDS on the Human Body?

Understanding the fundamental impact of **HIV/ AIDS** on a patient's physical, emotional, and mental well-being and development will help them prepare for changes now and in the future.

Chapter 3: HIV/AIDS Symptoms

Symptoms and Effects of HIV/AIDS on the Body: This chapter is simply intended to provide you with a basic understanding of the most common types of HIV/ AIDS symptoms.

Chapter 4: What is the Process of HIV/AIDS Diagnosis?

Without a variety of diagnostic tests, physical examination, and symptom analysis, a definitive diagnosis cannot be established.

Chapter 5: Preventing HIV Infection and Transmission to Others

HIV/ AIDS infections can spread in a variety of ways, and understanding how they spread is the first step toward preventing their spread and transmission to others.

Chapter 6: Traditional HIV/ AIDS Treatment Options

In the past two decades, drugs, medications, and treatment treatments for HIV/ AIDS patients in various stages of the disease have come a long way.

Chapter 7: Alternative Medical Treatments for HIV/ AIDS

Before even being prescribed drug therapies, some people may opt for non-pharmaceutical alternatives to HIV treatment.

Chapter 8: Living With HIV/ AIDS

Because knowledge and education are so vital in avoiding problems, reducing the frequency and intensity of symptoms, increasing longevity, and improving quality of life, it's critical to understand what others have done to adapt to and deal with HIV/ AIDS. Living with HIV/AIDS is a difficult situation to be in.

Chapter 9: HIV/AIDS-Related Illness Prevention

We'll go over some of the most prominent HIV/AIDS-related illnesses that people with the virus face, as well as what they can do to help prevent opportunistic infections.

Chapter 10: HIV/AIDS's prognosis

Understanding what happens during the HIV-AIDS transition can help some people become more aware of changes in their bodies and take efforts to organise their lives, care, and finances.

Chapter 11: Monitoring HIV/AIDS

An individual suffering with an HIV-positive diagnosis must not only learn about the disease's physical, mental, and spiritual elements, but also about their own mental health and spiritual well-being.

Chapter 12: Counselling HIV/AIDS

Roll of Counsellors in schools, colleges and universities, health care settings, social and welfare sectors, correctional settings, and other settings.

Important Note:Final Assessment and Certification : After successfully completion of this course with a minimum of 80% attendance and passing the Final Assessment Examination based on the knowledge gained during the course, a Course Certificate will be awarded.
